

2

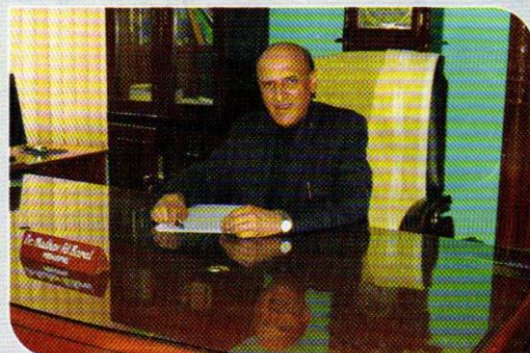

With the humble beginning from the year 1993, National school of Sciences (NSS) has reached the current stage passing 17 glorious years of its academic operation. We had virtually commenced our journey with few dozens of students offering Science education to the SLC graduates under the affiliation of HSEB. The Institute added the Faculty of Management in the year 1997. Bachelor level programmes BBS, BSc in Microbiology and Biochemistry, B. Tech (Food), B. Pharma and even Master's degree in Microbiology are further academic programs currently run under NSS Education Network. NSS in this way has taken a colossal dimension in the academic world forming a wider education network. At present the Network has been imparting quality education to around 2,000 students in plus two, 350 students in Bachelor's level, about 180 students in diploma courses and 60 students in Master's Degree.

It has been a really challenging task for us to reach this stage. With zero level infrastructure in the beginning, we are equipped at present with our own building complexes at Lainchour & Gongabu. We have duly changed the teaching/learning methodology during these 17 years, and are fully committed to catering the quality education suited to build up New Nepal of 21st Century.

On the auspicious occasion of the 17th anniversary of the college, I would like to extend my sincere thanks to all dedicated teachers, efficient administrative staff, management committee, government and non-government agencies, studious students and all the well wishers of this institution for their generative cooperation to build up such a prominent organization in the education circle of the nation. The collaborated effort of all our stakeholders has made it possible to grab the honour of "The best 10+2 College in Central Development Region" for three consecutive years as accredited by HSEB, Sanothimi. We promise to render quality education at affordable cost in the years to come and to explore new academic areas as demanded by the prospective students and as required for the nation.

At last we take this opportunity to welcome you at NSS.

Dr. Madhav Pd. Baral
Founder Principal

Message from the Principal

About NSS

National School of Sciences (NSS), established in 1993, has been run by a group of academicians deeply committed and dedicated to promoting and imparting quality education in the country. NSS Faculty of science aims at providing higher education to the deserving students who wish to seek a science-based career in future. After the rigorous orientation for two years, NSS students will be able to observe, experiment, investigate and utilise his/her creative potential in science related field with a marked impression. To meet the essential requirements for strengthening the quality of its programs, NSS is in the process of developing its own infrastructure and services of high quality, novel thoughts and practical approach. With the cooperation of the Faculty and other staff members, the institution is now capable to impart quality education for more than 2000 students per year.

The new education system (10+2), introduced by the Higher secondary education Board, has been adopted by NSS offering tremendous opportunities and advantages for the students. After the completion of two-year-course, students will be eligible to pursue MBBS, B.E., B.Sc. or any other bachelor's degree programmes. The college has been successful in producing 17 batches of +2 graduates in science stream with historical result.

Governing Board

NSS has been governed by an efficient governing board composed of teachers, professionals and experts that provide broad framework and guidelines. The overall day to day functions and responsibilities are assigned to the NSS Principal, who serves as the member secretary to the Board

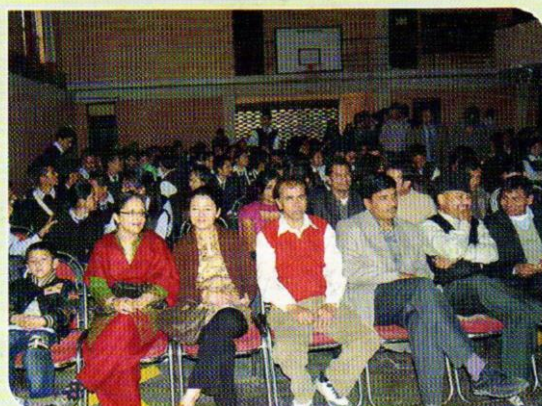

Academic Programmes

In recent years, the Institution has conducted morning and day shift classes in the science stream. Highly experienced, dedicated and helpful teachers conduct the classes in a supportive and conducive environment. All courses are duly completed in time. All efforts are geared to make NSS a student-centred college, specializing in quality education.

Apart from the 10+2 Course, NSS network also offers Bachelor and Masters level programmes such as B.Sc. and M.Sc. in Microbiology, Bachelor in Business Studies (B.B.S) affiliated to Tribhuvan University, and B.Sc. Bio Chemistry affiliated to Purvanchal university. From the year 2004, it has also introduced a three-year diploma course in Pharmacy affiliated to CTEVT. It has also commenced Bachelor's programme in Food Technology (B. Tech) duly affiliated to Tribhuvan University.

From The year 2009, NSS is proud to introduce Bachelor in Pharmacy (B.Pharma) Programme with the affiliation of Tribhuvan University and Lab Technician (a three-year-Programme) affiliated to CTEVT.

The College has master plan to introduce different academic programmes in the years to come.

Teaching Methodology

- Student Centered theoretical and practical Classes
- Biological Excursions and Industrial Visits.
- Home Assignments
- Audio-Visual
- Extra Classes

Counselling

The Student's Progress is monitored and evaluated regularly. Student's feed back is taken very seriously and counselling is provided for students together with parents or responsible guardian whenever it is necessary.
