

Academic Facilities

Laboratories

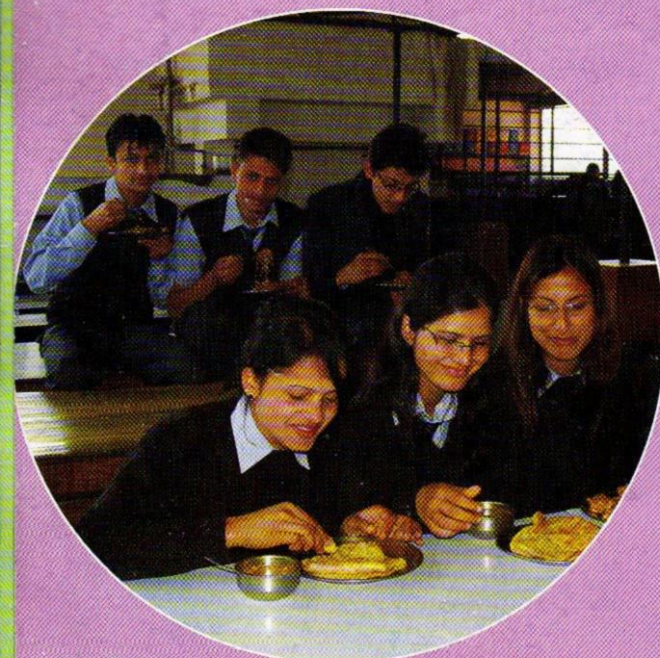

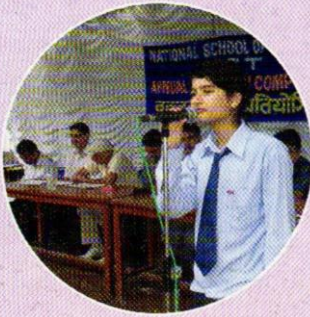

The Science laboratories are well-equipped and sophisticated. The laboratories are quite spacious, furnished with all necessary equipments, and are managed by dedicated faculties and lab technicians. There is a separate computer lab for the students seeking for computer science as the optional subject.

Library

Students and Faculty members can take full advantage of a well stocked and computerised library which has a good and wide selection of text books, and other reading materials. This department is handled separately by the Librarians, aided by the assistants.

Building

NSS provides good infrastructure and physical facilities. The New building at Lainchour for the Faculty of Science and Management are well furnished and ideal for teaching learning programmes.

Extra Classes

NSS makes every attempt during the academic period to ensure the regular classes, and assignments are given to encourage student's own effort in studies so that every student can achieve the objective of education. However, if some students require special assistance, extra classes are held for Physics, Chemistry, Biology and Mathematics.

Pre- Entrance Classes

NSS has also developed curricula for Pre-Medical and Pre-Engineering classes. Students gain a thorough grasp and intensive knowledge of the subjects, which they require for various competitive examinations.

Other Facilities

Hostel

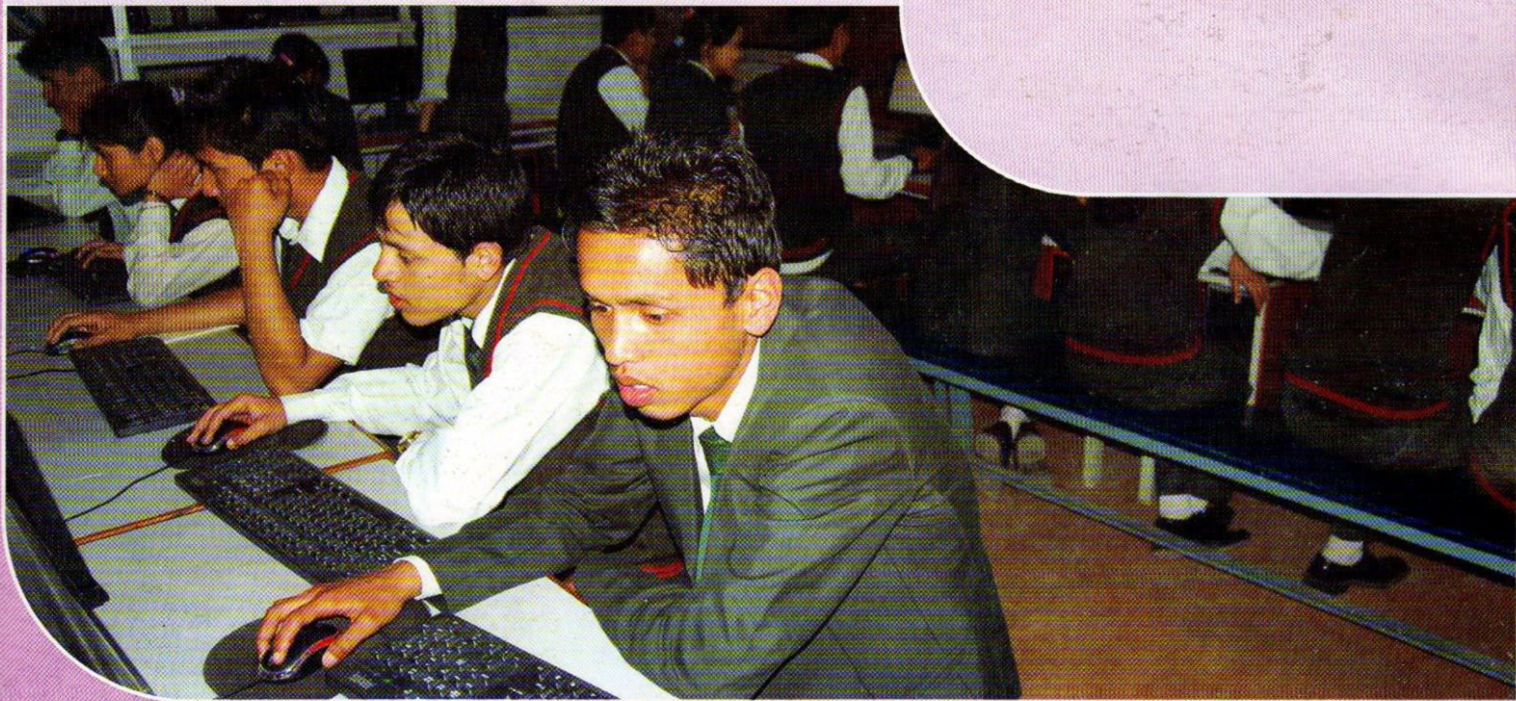

NSS has managed its own girls' and boys' hostels since last ten years to provide the homely and academic environment for students from outside the valley. The hostels are situated in peaceful environment at walking distance from college premises. We provide nutritious food besides common facilities like laundry, telephone etc, and extra tuition classes.

Cafeteria *cafeteria nss has*

NSS has provisions for a cafeteria which provides clean and hygienic food for both the students and faculty members at an affordable cost. The cafeteria is highly restricted against junk foods, smoking & all other alcoholic beverages.

Transportation

NSS has its own bus services available to students round the major parts of Kathmandu Valley.

Extra Curricular Activities

To develop the multidimensional personality of the students, NSS gives equal importance to extra curricular activities. Sports festival is held each year to encourage the students in sports. Students can also take part in other educational and cultural activities like Elocution, Quiz, Poetry, Essay, Music, Dance, Art and other social programmes.

Educational Tour

Field trips to different sites are organized to augment theoretical teaching. There are arrangements for the biological excursions, participation in exhibitions, Industry Visits etc.

Publication

NSS, in order to disseminate current scientific events, has regularly published a monthly journal Science Monitor for the last five years. Besides this, the students of faculty of Science and Faculty of Management publish Explorer and Agenda respectively. The magazines are the true platform to exhibit the creative potential of the students.
